# CX C-SERIES HYDRAULIC EXCAVATORS

CX210C | CX250C

## Clean power

Case C Series excavators use clean and efficient Tier 4 interim diesel engines.

Equipped with Cooled Exhaust Gas Recirculation (CEGR) and a diesel particulate filter, the engine is capable of meeting emissions regulations without the need for additional diesel exhaust fluids.

Automatic self-regeneration of the Diesel Particulate Diffusor (DPD) ensures no loss of productivity, while low engine rpm, improved hydraulic pump control and five new energy saving systems boost fuel economy by up to 10%.

A green economy gauge can be activated in the cab to inform the operator of the most economical operating mode setting for the machine, reporting fuel consumption in real-time.

# CX C-SERIES HYDRAULIC EXCAVATORS

CX210C | CX250C

## Advanced energy management

Through the use of 5 new fuel saving functions, C series excavators speed up productivity and substantially improve fuel economy. The new systems include:

### Boom Economy Control (BEC)

Increased fuel efficiency during boom lower and swing operations.

### Automatic Economy Control (AEC)

Improved fuel efficiency when servo joysticks are in neutral position and the operator is not calling for power from the machine.

### Swing Relief Control (SWC)

Carefully manages the hydraulic power distribution at slewing operations, to provide the most efficient flow and pressure.

### Spool Stroke Control (SSC)

Creates an automatic pressure adjustment during digging and leveling operations.

It saves fuel, while improving controllability for the operator in fine digging operations.

### Idle functions:

All C-series excavators also feature Auto Idle and Idle Shut Down systems.

When activated, Auto Idle automatically lowers engine revs, whatever the throttle position, when the levers have been inactive for 5 seconds.

Manually, Idle can be activated by a switch on the joystick. Idle shut down, when activated, shuts down the engine when there has been no activity for 3 minutes, resulting in additional fuel savings.

## Increased productivity

As part of the Case Intelligent Hydraulic System all Case C Series excavators benefit from improvements in performance and productivity.

Lifting capacity is increased and cycle times have been cut. Individual operating weights are slightly increased to cope with the additional digging and loading forces, ensuring stable, consistent high production for the customer.

Bucket and boom down regeneration systems feed hydraulic oil back to the supply side of the pump, reducing the requirement for engine power.

The C Series excavators use the familiar working mode control from the B Series machines, making it easy for the operator to become familiar with the new models. The Super Power Mode provides a 5% boost when required for maximum digging ability.

The new monitor in the C Series machines provides operators with the chance to pre-programme auxiliary hydraulic flow and pressure settings (option) for up to 10 attachments, providing rapid changeover and increased productivity.

CX210C | CX250C

## Tier 4 interim: lower consumption, top durability

The new Isuzu 4-cylinder engine meets EPA's Tier 4 interim without a need for additional diesel exhaust fluid.

The cooled exhaust gas recirculation (CEGR) in dual layer design effectively reduces NOx while PM is reduced by a diesel particulate filter (DPF) in combination with the variable geometry turbocharger. A diesel oxidation catalyst (DOC) treats carbon monoxide, hydrocarbons and other compounds.

Both components are integrated in the DPD (Diesel Particle Diffusor). Automatic self regeneration speeds your productivity - you can go on working as usual without stopping for the regeneration process of the particle diffusor. Side by side coolers, intercooler and the fuel cooler are now even more efficient thus further increasing our well appreciated durability.

A look under the hood immediately confirms an extremely efficient use of space: the engine, the cooling system and the exhaust system are all designed and grouped so as to take advantage of all the available space, while also granting excellent serviceability and operator visibility.

A ECO gauge can be activated on the new multifunction screen to inform you instantly about the key parameters concerning fuel economy and fuel consumption. Low engine rpm in combination with further improved pump torque control and further 5 new energy saving systems reduces the fuel consumption further by up to 10%.

## First class serviceability

All filters and regular fill points are grouped for easy access, with engine oil change intervals set at 500 hours. A synthetic filter is used for the hydraulic oil, providing 5,000 hour intervals, and all pins and bushes (except the bucket pin) use the Case Extended Maintenance System bushings, allowing greasing intervals of up to 1,000 hours.

The radiator and cooler cores are mounted side by side, to allow easy access for cleaning and more efficient cooling. A 100 litre/min refuelling pump with automatic cut off is provided as standard, reducing downtime for regular fills.

The Japanese-built Case excavators boast an enviable reputation for reliability and durability, which looks set to continue with the new C Series of CX class crawler excavators.

# CX C-SERIES HYDRAULIC EXCAVATORS

CX210C | CX250C

## First class operator environment

The C Series cab is 7% larger than the previous models and uses a smaller top beam and no overlap in the front windows to offer improved all round visibility. Noise levels are reduced to almost automotive standards, around 70dB(A), while the operator has a suspension seat and fully adjustable levers as standard. Travel pedals require less effort, reducing fatigue for the operator.

The ROPS/FOPS level 1 certified cab sits on new suspension mounts. To reduce vibration for the operator and contribute to the lower internal noise levels.

The cab has a powerful air conditioning system with 25% more airflow and an 8% increase in performance.

New mirrors and a standard rear view camera, with optional side camera, improved 178 mm LED monitor inside the cab, providing the operator with a safe and secure working environment.

## Full colour multifunction monitor

The standard 178 mm LED monitor provides all of the information that the operator needs at a glance. Easy to use buttons guide the operator through the screen functions and the monitor can be split to show the standard rear view, and optional side view camera images.

Information includes working mode, travel speed, working lights, attachment choice, time and working hours, along with system data such as coolant and hydraulic oil temperatures, fuel level and the condition of the particulate filter and the auto-regeneration function.

When selected, the ECO gauge displays the function of the various energy saving systems, allowing the operator to maximise efficiency and save fuel. The monitor can be set to work in one of 20 languages, and is also used by service technicians to access onboard diagnostic functions.

## SiteWatch™

### The Science Bit

The Case SiteWatch telematics system uses a high-tech control unit mounted on each machine to collate information from that machine and from GPS satellites. This data is then sent wirelessly through the mobile communication networks to the Case Telematics Web Portal.

# SiteWatch: Centralised Fleet Control Benefits At Your Fingertips

## Measure your true asset availability and optimise it

- Eliminate the “phantom fleet”: SiteWatch allows to identify spare units or under loaded machines on each site.
- Become able to reallocate units where they are more needed.
- Forward Maintenance Planning is easier since the actualised working hours are always available.
- Extend the benefits of SiteWatch to the rest of your fleet: SiteWatch can be installed on the units of other brands as well.

## Challenge your Total Cost of Ownership!

- Being able to compare the fuel usage of different machine types will allow you choose the right equipment.
- Save on transport costs with planned and grouped maintenance tasks.
- Peace of mind, optimised uptime and lower repair costs: with preventive maintenance you can for example be alerted if the engine needs to be serviced and avoid a disruptive breakdown.
- Be able to compare your asset Return On Investment on different sites.
- Your equipment is used only during working hours. You can set up alerts so that you know if it is in use during the weekend or at night.
- Integrate with the programmed maintenance package, so that you can be sure every machine is at the right place at the right time.

## More Safety, Lower Insurance Premium

- Keep thieves away: dissuade them from attacking your asset because it is geo-localised. SiteWatch is hidden so that thieves can't find it quickly.
- Your fleet is used only where you decide. You can define a virtual fence and receive an email when a machine exits that perimeter.

# CX C-SERIES HYDRAULIC EXCAVATORS

## CX250C LONG REACH

### General dimensions

#### Arm 8.00 m

	Overall length (without attachment)	5270 mm
A	Overall length (with attachment)	14380 mm
B	Overall height (with attachment)	3130 mm
C	Cab height	3130 mm
D	Upper structure overall width	2770 mm
E	Swing (rear end radius)	2950 mm
F	Clearance height under upper structure	1100 mm
G	Minimum ground clearance	460 mm
H	Wheel base (Center to center of wheels)	3840 mm
I	Crawler overall length	4650 mm
J	Track gauge	2590 mm
K	Undercarriage overall width (with 800 mm shoes)	3390 mm
L	Crawler tracks height	940 mm

## Standard Equipment CX210C

**ENGINE**  
Isuzu 4-cylinder turbodiesel in line  
Certified Tier 4 interim (CEGR)  
Electronic fuel injection  
High pressure common rail system  
Variable geometry turbo charger  
Cooled Exhaust Gas Recirculation (CEGR)  
Diesel Particulate Diffuser (DPD)  
(Diesel Oxidation Catalyst DOC + Diesel Particulate Filter DPF)  
Neutral safety start  
Auto-engine warm up, emergency stop  
Glow-plug pre-heat  
Idle System:  
Auto-idle  
One-touch idle  
Idle shut-down  
EPF (Engine Protection Feature)

Dual-stage fuel filtration  
Dual element air filter  
Remote oil filter  
Green plug oil drain  
500-hour engine oil change interval  
Refuelling Pump  
**HYDRAULICS**  
Auto power boost  
Auto swing priority  
Auto travel speed change  
Selectable work modes  
Overload warning device  
SWC - SWING RELIEF CONTROL  
SSC - SPOOL STROKE CONTROL  
BEC - BOOM ECONOMY CONTROL  
AEC - AUTO ECONOMY CONTROL  
SEC - SWING ECONOMY CONTROL  
ISO pattern controls  
Pre-set auxiliary pump settings

Switch controlled auxiliary selection  
10 x auxiliary flow settings in memory  
Auxiliary valve  
Auxiliary pipe brackets  
5,000 hour hydraulic oil change interval  
1,000 hour hydraulic filter change interval  
Hydraulic track adjustment  
SAHR brake  
**UPPERSTRUCTURE**  
4-point isolation mounted cab (fluid and spring)  
Common key vandal locks  
Swivel guard belly pan  
Rear view safety camera  
**ATTACHMENTS**  
Standard boom 5.70 m

Arm HD 2.40 m  
EMS bushings  
Bucket linkage with hook  
Boom mounted work light (70 watt)  
Auxiliary pipe brackets  
Centralized lube bank  
Attachment cushion valve  
Arm and boom regeneration  
Safety valves on boom and arm cylinders with overload warning device  
**OPERATOR STATION**  
Interior dome light (10W)  
ROPS/FOPS level 1 cab  
FOPS guard OPG level II on cab roof  
Pressurized cab  
Tempered safety glass  
One-touch lock front window  
Sun visor & rain deflector

AC/heat/defrost w/ auto climate control  
Hot & coolbox, cup holder & ashtray  
Interior dome light  
Cloth covered air-suspension seat  
Seat-belt  
Adjustable armrests  
Tilting consoles - 4-position  
Low-effort controls (short)  
Sliding cockpit (180 mm)  
Controls pre-wired for auxiliary  
Auxiliary select system  
Straight travel  
Aux-in port for personal electronics  
Multifunction color monitor  
Rear-view camera  
Anti-theft system (start code system)  
Rubber floor mat

12-volt electric socket  
24-volt cigarette lighter  
One-piece right hand window  
2 internal & 3 external view mirrors  
2 working lights (boom & upperstructure)  
Beacon harness  
2 cab top working lights  
Windshield wiper / washer  
Clear (Lexan) roof window w/ sunshade  
Storage compartments  
On-board diagnostic system  
**UNDERCARRIAGE**  
600 mm steel shoes, triple semigrouser  
Strutted and sealed link  
Full overlap turntable bearing tub  
Single track guide

## Optional Equipment CX210C / CX210C LONG REACH

**HYDRAULICS**  
Auxiliary Hydraulics -  
Single acting breaker circuit  
Multifunction circuit w pressure control  
Low-flow circuit

**ATTACHMENTS**  
Long Reach boom and arm  
Arm - 1.90 m HD / 2.94 m  
Hydr. or mech quickcoupler  
Buckets: Extreme / Heavy duty / GP / ditching

Hammers, shears, grapples  
**OPERATOR STATION**  
Front cab guard - vertical bars (OPG level 2)  
Front cab guard - vertical bars

(OPG level 1)  
Front mesh screen  
AM/FM radio w/ antenna and 2-speakers  
Side-view camera  
**UPPERSTRUCTURE**

Auto centralized greasing system  
Rubber bumper guard (order through Service Parts)  
**UNDERCARRIAGE**  
Steel shoes, triple semi-grouser

700 mm, 800mm  
900 mm steeltracks for swamp only, 600mm rubber link chains  
Triple track guide  
High ambient heat package - 45-50°C (Tropical Package)

## Standard Equipment CX250C

**ENGINE**  
Isuzu 4-cylinder turbodiesel in line  
Certified Tier 4 interim (CEGR)  
Electronic fuel injection

**UNDERCARRIAGE**  
600 mm steel shoes, triple semigrouser  
Strutted and sealed link  
Full overlap turntable bearing tub  
Single track guide

## Optional Equipment CX250C / CX250C LONG REACH

**HYDRAULICS**  
Auxiliary Hydraulics -  
Single acting breaker circuit  
Multifunction circuit w pressure control  
Low-flow circuit

**ATTACHMENTS**  
Long Reach boom and arm  
Boom 5.85 m HD  
Arm - 2.50 m / 3.52 m  
Arm Heavy Duty - 2.50 m / 3.00 m

Hydr. or mech quickcoupler  
Buckets: Extreme / Heavy duty / GP / ditching  
Hammers, shears, grapples  
**OPERATOR STATION**  
Front cab guard - vertical bars

(OPG level 2)  
Front cab guard - vertical bars (OPG level 1)  
Front mesh screen  
AM/FM radio w/ antenna and 2-speakers

Side-view camera  
**UPPERSTRUCTURE**  
Auto centralized greasing system  
Rubber bumper guard (order through Service Parts)

**UNDERCARRIAGE**  
Steel shoes, triple semi-grouser  
700 mm  
Steel shoes, triple semi-grouser  
800 mm, 900 mm (LC only)  
Triple track guide

Standard and optional equipment shown can vary by country.
